

ADVANCE NOTICE – ROAD RECONSTRUCTION WORKS

Please be advised that North Lincolnshire Council are planning to carry out reconstruction works on the roads shown on the attached drawing. The roads are to be reconstructed using a cold in-situ recycling process, this process involves pulverising and reshaping the existing road construction and then overlaying with a new surface course.

Due to the nature of the works and the restricted road widths it will be necessary to close the roads to through traffic.

Works are programmed to start during week commencing 25th October 2021 and will last for approx. 6 weeks; more precise dates for each site are shown below

Site 2 - Middle Lane, Amcotts - 23/11/21 to 30/11/21

Site 1 - Access Road to Amcotts Grange, Amcotts - 29/11/21 to 02/12/21

The type of work to be undertaken is weather dependent so there may be some alterations to the dates/durations.

Advance warning signs will be erected before commencement of the works and diversion routes where applicable will be signed, note all residents/occupiers within the extents of the road closures will be able to access their properties but there will inevitably be some disruption and inconvenience, patience and understanding will be much appreciated.

If you require any further information, please contact the undersigned and please see attached drawing detailing scheme locations.
